Friday, June 12, 2020
6.30 PM IST

VIJAYBHOOMI
UNIVERSITY
India's First Liberal Professional University

Karjat, Greater Mumbai, India. www.vijaybhoomi.edu.in

Takeaway **Learnings**

- Moving of students from one country to another for studying will stop for some time.
- Students might postpone their education plan for year or study in native country
- It not the problem of students' mobility but the issue is with the faculty mobility
- Students should see how they can get the experience of international exposure sitting in the India
- Collaborate with international universities giving the same experience sitting in the home country.
- We knew the companies using the word Work from Home (WFH) but the institutes have started using Learn from Home (LFH)
- Students might be working more than 1 or 2 virtual internships working for more than company & more than one project which help the students learn more than usual
- Internship has got hit but will change in model of internship will make more students
- Today education is everywhere you need to find the ways to learn more & improve for the future
- Students must be more flexible & patient to find the right future in present situation
- Future education world might have course credit bank., wherever the students study they can carry the course credits
- Global education needs to be revisited in the way it works presently
- Accreditation & Ranking will have a greater role in faceless world. They will become more stronger than present
- Modern generation is more connected than past generation, they have already building their communities.
