# Educators Speak: How to build a school in the new decade.

*Main  
Takeaway*

**From STEM- Science, Technology, Engineering, and Mathematics, we are now passing the STEAM (with arts) for STREAM (with reading) acronym.**

## Introduction

The fast-paced advances in technology and changes we are experiencing now in education will create an entirely new vision for how schools in the future will be built and appear as. What is the future of education? What is a “school of the future?” How can we develop effective education strategies using our advancing technology to benefit our students? If you are interested in learning the answers to these questions, join us in the "How to build a school in the new decade" episode of the Educators Speak series with Dr. Rashmi Tyagi- Principal Director of The Modern School, Mumbai, on the 25th of March, 2021 at 5:00 PM.

*Takeaway* **Learnings**

---

- Education has gone through a 360-degree transformation due to the pandemic.
- The system aims at educating students for the 21st Century and the 2021 decade.
- Art is everywhere- from where we see, work, and feel in an everyday setting. Integrating art into the education system revolutionizes learning.
- Blended and Hybrid learning, arts & science integration, augmented reality, and technological revolution makes the university of learning.
- Infrastructure needs to change and evolve beyond the four walls of a classroom.
- Simulations explain complicated machines and concepts with ease.
- Robotic projects that help humankind become tools for experiential and experimental learning.
- Training for teachers with the parents as partners is a transformation in itself.
- When sustainable living breathes in an institution's infrastructure, students absorb and inculcate values of giving back and social responsibility.
- Bloom's Taxonomy makes students question and search for answers in a dynamic world.
- Be your student's friend; Provide emotional support when they hit a mental roadblock.
- Every child's personality and nature determine their needs and perspective of learning.
- Shantiniketan- 'Shanti', means peace and harmony, and 'Niketan', a place where nature showers blessings. Outdoor spaces through sunlight and greens promote direct learning from nature.
